

LORCH
smart welding

GIVE IT YOUR ALL WHEREVER YOU ARE

Powerful, yet lightweight at 6.8 kg:
the MicorTIG - now with a FREE
fitness tracker!

... and its sportiest
feature is the price:

**Bundle and save
169,00 €!**

**For those who give it their all wherever
they are:**

Mobile and compact 200 DC TIG welding
machine with MicorBoost technology, non-
contact high-frequency ignition and electrode
welding function.

+

FitBit Inspire as a free gift!

The TIG power package: Compact. Mobile. Intuitive.

+ Ready-to-weld package.

Start right away with a welding unit that comes with matching accessories.

+ Intuitive control.

ControlPro control panel with graphic display, push-and-turn controller and job memory function.

+ Singular flexibility.

Completely independent thanks to All-In technology supporting mains, generator and optionally available battery operation.

+ Powerful.

The built-in Power Factor Correction Module (PFC) provides for an optimum mains load as well as full capacity during 230 V mains operation.
